PROFILE

Full Stack Developer with 2+ years of experience building scalable SaaS, e-commerce, and workflow management applications using Next.js, React.js, Node.js, PostgreSQL, MongoDB, Prisma, and Shopify Liquid. Skilled in REST APIs, RBAC systems, responsive UI development, Docker, and modern frontend/backend architectures.

PROFESSIONAL EXPERIENCE

Full Stack Developer, *Clickseon* Jun 2026 – Present | Hybrid

- Improved website performance and PageSpeed scores to 90+ by optimizing Core Web Vitals, LCP elements, image and media loading, render-blocking resources, JavaScript/CSS execution, and third-party scripts across multiple client websites.
- Refactored and improved existing website structure by resolving layout, responsiveness, navigation, and functional issues, fixing bugs, optimizing reusable components, and implementing UI/UX enhancements for better stability and maintainability.

Full Stack Developer, *Suntek.ai* Oct 2025 – May 2026 | Remote

- Designed, developed, and maintained scalable full-stack web applications for multiple client projects using Next.js, Node.js and Shopify Liquid improving UI performance and development workflows.
- Developed a Kanban SaaS project management platform using Next.js and PostgreSQL, enabling different stakeholders to manage projects through board/list views, task workflows, advanced filtering, and role-based access control for better team visibility and collaboration.
- Built a Shopify discount management app using Node.js, automating discount syncing and product/variant metafield updates with ranking and eligibility logic via Docker workflows and cron jobs.

Full Stack Developer, *BTJ Alpha Technology* Jul 2024 – Oct 2025 | Noida

- Developed and deployed several web applications, including Admirer, Non Brokerage, and BTJ Alpha Technology (company website), focused on delivering dynamic, responsive, and high-performance user experiences.
- Worked on multiple web development projects using React.js, Node.js, Express.js, and MongoDB, along with modern frontend technologies such as HTML, CSS, JavaScript (ES6+), and Tailwind CSS.
- Collaborated with developers through Git and GitHub for version control, ensuring seamless integration, clean workflows, and a scalable component-based architecture.

SKILLS

- **Frontend**: React.js, Next.js, JavaScript, TypeScript, Zustand, Tailwind CSS, Shadcn UI, Shopify Liquid
- **Backend & Database:** Node.js, Express.js, Next.js, REST APIs, Mongoose, MongoDB, PostgreSQL, Prisma, Python
- **Tools**: Git, GitHub, Docker, Vercel, Postman, Render

PERSONAL PROJECTS

Eventora

- Built a full-stack event booking platform using React, Node.js, Express, MongoDB, and JWT authentication.
- Integrated Razorpay payment gateway and email notifications using Nodemailer for booking confirmation, cancellation, and user verification workflows.
- Implemented event search, filters, bookings, cancellations, seat tracking, and user/admin dashboards.

Feedback Fusion

- Built a full-stack feedback management platform using Next.js, TypeScript, Prisma, PostgreSQL, and Clerk authentication.
- Implemented feedback submission, voting, comments, category filtering, and public roadmap tracking.
- Created an admin dashboard with role-based access to update feedback status: under review, planned, in progress, completed.

EDUCATION

Master of Computer Applications 2022 – 2024 | Gr. Noida, India

Galgotias University
